ACT NOW TO SAVE

Drive Your Customer Loyalty Program with Cybera Overlay!

Simplify and accelerate your path to business growth with Cybera's Shell-approved Fuel Rewards Network™ (FRN) Loyalty Module. Shell branded retailers can now use Cybera Overlay to **process credit card AND loyalty transactions** on the same Overlay platform, eliminating the need for any additional devices.

As a fully-integrated software application with your Cybera Overlay platform, the FRN Loyalty Module can be up and running at your store within minutes. Combined with Cybera Overlay's 3G/4G wireless backup, you can maximize the availability of the FRN loyalty program to keep customers coming back.

To get started, contact Cybera today to add the loyalty module to your existing Overlay platform. The installation is easy and can be done without a technician visit. If you have not ordered Cybera Overlay, you can get the latest order form from Shell Source on the Cybera Diamond Deal vendor page or you can **contact Cybera at sales@cybera.net or 866-429-2372.**

APPLICATION BENEFITS:

- Improve reliability of loyalty transactions by processing even when the primary Internet connection is offline
- Save space, power and complexity by eliminating additional loyalty device
- Improve loyalty performance issues with monitored and managed "always-on" connection
- No increase in reoccurring monthly fees as it is part of the Overlay base package
